L07 - AVAILABILITY OF DRAWINGS (DSCC 52.211-9C13) (JAN 2003)

The primary source for drawings, which support DSCC solicitations, is the DSCC Bid set Interface (DBI) website. The website is available through the DSCC Internet Bid Board System (DIBBS). All drawings available on the DBI website must be viewed and/or downloaded from the website. Requests for hard copy or CD-ROM copies of drawings that are available on DBI will be returned unprocessed.

Request for drawings that are listed on the DBI, as 'Restricted, Available to Authorized Vendors only', must be ordered by clicking on the 'Order via CD-ROM'. An automated order form will appear with the Solicitation #, Return by Date and NSN populating the first three fields of the form for your convenience. It is important that the 'Certification # and Certification Date' are completed on the form. Failure to provide complete information will cause delays in issuance of the requested drawing(s). All requests for restricted drawings will be provided on CD-ROM. Allow seven days for

receipt of the CD. If you have any questions about your order after seven days call 614-692-1204.

To assist us in operating this website feature, we have established a vendor-interactive e-mail address at [dbi-drawings\(at\)dsccl.dla.mil](mailto:dbi-drawings(at)dsccl.dla.mil). If you are reading solicitations and accessing available bid sets and discover a discrepancy between what is listed in the 'Item Description' of the solicitation and what is available in the bid set drawing list, we request that you send an e-mail message describing the discrepancy. You may advise us in instances such as, 'wrong revision level in the DBI', 'drawing(s) in the solicitation, but none in DBI', or 'additional drawings in the solicitation and not available in DBI'.

CAUTIONARY NOTE: It is your responsibility to make sure that you obtain and use the drawings and revision levels that are called out in the solicitation.

If you have any questions about the operation of the DBI website (drawing questions only), call 614-692-3207 or 614-692-1204.

FOR LONG TERM CONTRACTS, WITH MULTIPLE NSNS, THAT REQUIRE DRAWINGS.

To obtain the CD-ROM drawings contact the Long Term Contract Drawing Monitor via email: [Leonard.gutter\(at\)dsccl.dla.mil](mailto:Leonard.gutter(at)dsccl.dla.mil). Questions or comments may be directed to Leonard Gutter at 614-692-2306.

M07 - AUTOMATED BEST VALUE SYSTEM (ABVS) (DSCC 52.215-9C10) (NOV 2003)

(a) Award will be made to the offeror(s) whose offer(s) conforms to the solicitation requirements and represents the best value to the Government. An award may be made to other than the lowest priced, technically acceptable, responsible offeror(s). Price, offered delivery, and past performance will be evaluated equally when making a comparative assessment

of offers. The past performance factor will consider quality and delivery to be of equal value.

(b) Past Performance:

(1) Past performance information is maintained for performance under all procurements with the Defense Logistics Agency (DLA). ** Overall performance is evaluated as is performance in each Federal Supply Class (FSC). This information is used to generate ABVS ratings which are based on the following indicators:

Delivery Delinquencies

- Number

- Severity

- Contractor caused Terminations, Cancellations, and Withdrawals

For administrative purposes, the delivery rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the Contract Delivery Date (CDD). Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

Quality Complaints

- Product Nonconformances/Laboratory Test Failures

- Packaging Nonconformances

For administrative purposes, the quality rating period excludes the most recent 30 days. Repair, replacement, or reimbursement of quality and packaging defects will not provide relief of negative ABVS data.

**The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in July 2002.

Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs, which are not in the BSM test, ABVS will continue to work as it does today.

A BSM Release One Inquiry Menu has been created which allows vendors to determine if a particular FSC or NSN is included in the initial release at: https://www.webflis.dlis.dla.mil/WEBFLIS/ASPs/scripts/Public_BSM.asp. Awards that will not be included in the ABVS performance data can be identified by contract numbers beginning with SPMXXX or SPEXXX, in lieu of SPOXXX. All current DLA Long Term Contracts (LTCs) with NSNs in the BSM test will be modified changing the contract number to SPMXXX. Delivery orders issued against non-DLA Basic Ordering Agreements (BOAs) and LTCs will have delivery order numbers starting with YM.

This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Supplier Information Resource Center at <http://www.dla.mil/j-6/bsm/sirc/>

NOTE: The above 60 and 30 day offset periods are NOT grace periods. Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance.

(2) An offeror's past performance is an indicator of performance risk and will be evaluated first on the basis of past performance in the same Federal Supply Class (FSC) as the supplies being solicited. The Contracting Officer may consider the volume of business on which the performance score is based as a measure of confidence in the FSC score. A

vendor's overall score may be evaluated when a satisfactory measure of confidence cannot be obtained from the FSC score or if a vendor has no FSC score. The Contracting Officer may also take into consideration any other available and relevant past performance data.

(3) An offeror with no performance history in any FSC procured by DLA will be identified as a new offeror and will not be scored by ABVS on performance. However, any other available and relevant past performance data may be considered in rendering an award decision. Regardless, the status of being a new offeror will not be grounds for disqualification for an award. New offerors may be considered more favorably than scored offerors with a poor performance record. Also, the desirability of expanding the supplier base and possible competition enhancement in future procurements will be considered in the source selection decision when new offerors are present.

(4) ABVS ratings do not determine an offeror's award eligibility, or technical acceptability, nor does it constitute a responsibility or non-responsibility determination.

(5) By accessing the DSCC Internet Bid Board System (DIBBS), (<http://dibbs.dsccl.dla.mil>), each offeror will be provided the opportunity to review their ABVS scores and negative historical performance data. For any questions or challenges to negative performance data, please forward requests/challenges to an ABVS Administrator at the below cited address, or telephone/fax an Administrator at one of the provided numbers:

(6) When a discrepancy between contractor data and Government data occurs, the Government will make every effort to resolve the discrepancy expeditiously. However, the Government may make an award decision despite the existence of an unresolved challenge. The Government is the final authority for resolution of disputed data and its use in the source selection process.

(c) Price. In making an award decision, the Government may consider price as follows:

- (1) Offered Price - The Government will evaluate the reasonableness of the offered price after a price analysis of offers is performed.
- (2) Evaluated Price - If required, the evaluation process may include the Delivery Evaluation Factor (DEF), the Small Disadvantaged Business Concerns (SDBC) preference, and/or any other applicable price evaluation factor(s).

(d) Delivery. The quoted delivery will be evaluated in comparison with the delivery required on the solicitation.

(e) General Basis for Award. Award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and which represents the best value to the Government. In making the best value determination, the Government will make a comparative assessment of the proposals with regard to price, delivery, and past performance. The following considerations may affect the trade-off determination:

- Whether or not an item is used in a weapons system or is a personnel support item
- Item delivery and quality history
- Inventory status
- Delivery schedule/urgency of the item
- Limited number of supply sources
- Benefits from obtaining new sources
- Difference in price
